

Title: *Resolving Network Connectivity Issues*

Checklist:

-  Check if Ethernet cable is connected
-  Verify the switch port is up
-  Run `ipconfig / ifconfig` to confirm IP
-  Ping the default gateway
-  Try DNS resolution: `ping google.com`
-  Restart network interface if needed:
 - Linux: `sudo systemctl restart NetworkManager`
 - Windows: `ipconfig /release + ipconfig /renew`
